WHEREVER YOU ARE

**Private Label**

## BODY SPONGE

**A body sponge manufactured from high-quality material takes care of the user in a bath, shower or sauna. The rough side of the sponge exfoliates the skin effectively but gently, and the soft side foams and cleanses the skin after the exfoliation.**

The body sponge is perfect for daily use. It is an economical option, since the sponge foams well with soaps and cleansing liquids. Fresh and clean colour options also make the family body sponges pleasing to the eyes.
